The SAT® Pro Course includes six classes totaling 12 hours of live instruction and active participation by students. The course covers the core concepts and strategies needed for each section of the SAT®. Students will have the opportunity to apply new concepts and strategies as they work through FIVE real SAT® practice tests. Participants should be prepared to commit to attending all sessions and completing all assignments in order to achieve the best results.

Ideal for students planning to take the SAT® this fall!

Students will be responsible for completing all assignments and can expect up to 4-5 hours of homework each week. I will check in periodically and will have a Q&A during each session. However, for 1:1 assistance, I recommend private consultations outside of this course.

Sessions are scheduled to be 120-minutes long but may run over time so please plan accordingly. Attending live sessions is not mandatory as all sessions will be recorded, but students are required to complete all assignments by the assigned due dates.

*NOTE: Students can print free PDF practice tests from the College Board's website. I mainly recommend the book for students who do not have access to a reliable printer and a lot of ink/paper. Recommended Materials: pen, pencil, highlighter, notebook, and graphing calculator (TI-84 Plus CE)
